

Haziza™

We Welcome
YOU to our showroom.

Haziza is composed entirely of master artist Shlomi Haziza's work. He brings vision and design to life with his striking sculptures and contemporary pieces of functional art. His distinctive style can be appreciated in his ever-evolving collection of art, furniture, accessories, rugs, lighting, waterfalls, fashion, and more.

Haziza is a world leader in art, design, and innovation, with over 100 artisans in Los Angeles, California, cutting, casting, sanding, sandblasting, packaging, and shipping art and furniture designs worldwide.

With thousands of combined hours of experience, and more than 15 years of creating designs and servicing customers around the world, our team creates thousands of styles in more than 25 different product categories with infinite variations in color, thickness, size, form, and upholstery, including the customer's own material.

At any of our showrooms, you will be greeted with color, movement, music, and a knowledgeable staff of design consultants. Our world is filled with activity, whether it is an artist signing or one of many parties and events to celebrate life. Custom designs are welcomed and are masterfully executed to your specifications.
